You are invited to the March lunch in the Research Partners Lunch Series. The goal of the lunch series is to introduce research topics for the development of research partnerships across disciplines. These partnerships can serve as a foundation for interdisciplinary research endeavors, grant proposal writing, course development, and innovative research applications. Different researchers from across the University are invited to brief a research topic each month for potential research partners.

The lunch will begin at noon and the presentation will begin at 12:15 pm. At 12:30 pm discussion will be facilitated among participants regarding the topic and potential collaborations. At 1:00 pm lunch will end and participants can network until 1:30 pm.

The lunch on March 18 in NERC 1012 will feature criminal justice research applications. A broad array of research application areas that criminal justice faculty are involved in will be discussed that may be relevant to research partners across the university. Criminal justice researchers’ primary topic areas include:

- Cybercrime
- Macro-level Trends in Organized Crime and Drug Trafficking
- Policing and Police Use of Force
- Computer Deviance
- Cyber Forensics
- Human Trafficking
- Epidemiological Criminology
- Sociocultural Context of AIDS/HIV
