

ABOUT

- ▶ The Center for Advanced Public Safety (CAPS) at the University of Alabama has developed a powerful web portal dashboard that allows users to analyze and visualize electronic data in a variety of ways.
- ▶ The Alabama Emergency Medical Services and Trauma data has been configured to display in the dashboard shown below.
- ▶ Currently there is only one database on this portal but other databases can be added to the portal.
- ▶ This dashboard was developed at CAPS through sponsorship from the Alabama Office of Highway Safety. CAPS collaborated with the Alabama Office of EMS and Trauma at the Alabama Department of Public Health on development of the dashboard portal.
- ▶ This dashboard is individually password protected for use by personnel at the Office of EMS and Trauma.

FEATURES

- Displays Summary Data
- Performs Dynamic Analysis
- Drill Down tab for specific filtering of data
- Applies Filters to Data
- Does Side-By-Side Data Comparisons
- Performs Crosstabs of Two Variables
- Fast - Uses CARE Processing Engine
- Does Timeline Analysis
- Data sources updated regularly for timely data
- Exports data, charts and graphs to Excel or as an image
