ECONOMIC IMPACT METHODOLOGIES FOR RESEARCH

Tuesday, July 29, 2014 from 11:30am to 1:30pm
NERC (North Engineering Research Center), Room 1012

RSVP by Monday, July 21, 2014 via the following link:
https://universityofalabama.az1.qualtrics.com/SE/?SID=SV_6SA5ZZASOPGKVNZ

You are invited to the July lunch in the Research Partners Lunch Series. The goal of the lunch series is to introduce research topics for the development of research partnerships across disciplines. These partnerships can serve as a foundation for interdisciplinary research endeavors, grant proposal writing, course development, and innovative research applications. Different researchers from across the University are invited to brief a research topic each month for potential research partners.

The lunch will begin at 11:30am and the presentations will begin at 12:15pm.

This month's topic is economic impact methodologies for research. Most research grants now require an economic impact component. Ahmad Ijaz from the Center for Business and Economic Research will present these economic impact methodologies with a focus on Input-Output multipliers. This topic will be of interest to all researchers who need to include an economic impact component in their grant proposals.

Kindly RSVP your attendance by Monday, July 21 via the link below so we can reserve your lunch.

If you have any further questions about the lunch, please call Valerie Trull at 205-348-6999.

Thank you so much and we look forward to meeting you at the Research Partners Lunch Series.
