You are invited to the June lunch in the Research Partners Lunch Series. The goal of the lunch series is to introduce research topics for the development of research partnerships across disciplines. These partnerships can serve as a foundation for interdisciplinary research endeavors, grant proposal writing, course development, and innovative research applications. Different researchers from across the University are invited to brief a research topic each month for potential research partners.

The lunch will begin at noon and the presentations will begin at 12:15pm.

This month's topic is virtual reality technologies and applied research. Dr. Rick Houser from Educational Studies in Psychology, Research Methodology, and Counseling and Dr. Amy Traylor from Social Work will present on the use of virtual reality applications in their research.

Kindly RSVP your attendance by Friday, June 20 via the link below so we can reserve your lunch.
