

eSearch

ABOUT

■ eSearch is an administrative website that has been developed to be used in conjunction with eCite. Court clerks and magistrates are given access to the site to view tickets, print tickets, mark the status of tickets, view the case associated with that ticket, and search by court date among other things. There are various search fields that enable court personnel and to ascertain a tremendous amount and array of information instantaneously.

■ eSwear is a virtual swearing process that allows the officer to swear to the authenticity of the ticket and the clerk to confirm via a touch-screen kiosk. We believe Alabama is the first state to implement such a system. eSearch is used in conjunction with eSwear but eSearch can also be used for courts that do not have the eSwear system.

■ eSearch and eSwear were developed by the Center for Advanced Public Safety at the University of Alabama in cooperation with the Alabama Administrative Office of Courts.
