

RESEARCH PARTNERS LUNCH SERIES

Coordinated by the Center for Advanced Public Safety • Hosted by the College of Engineering

DISASTER AND SEVERE WEATHER RESEARCH APPLICATIONS, PART II

Tuesday, May 27, 2014 from 12:00pm to 1:30pm
NERC (North Engineering Research Center), Room 1012

RSVP by Wednesday, April 23, 2014 via the following link:
https://universityofalabama.az1.qualtrics.com/SE/?SID=SV_elj8JYfpLtFhRbf

You are invited to the April lunch in the Research Partners Lunch Series. The goal of the lunch series is to introduce research topics for the development of research partnerships across disciplines. These partnerships can serve as a foundation for interdisciplinary research endeavors, grant proposal writing, course development, and innovative research applications. Different researchers from across the University are invited to brief a research topic each month for potential research partners.

The lunch will begin at noon and the presentation will begin at 12:15pm. At 12:30pm discussion will be facilitated among participants regarding the topic and potential collaborations. At 1:30pm lunch will end and participants are free to network afterwards.

The lunch on May 27 in NERC 1012 will feature Part II of disaster and severe weather research applications in honor of the anniversary of the April 27, 2011 Tuscaloosa tornado. A broad array of research application areas that UA faculty are involved in will be discussed that may be relevant to research partners across the university.

UA researchers' primary topic areas include:

- Research on the emotional effects of the tornadoes on children's behavior
- Extreme event engineering research, including engineering reconnaissance research for Hurricane Katrina, the Tuscaloosa and Joplin tornadoes and recently the Moore, Oklahoma tornado.
- Post traumatic stress treatment research for severe storm PTSD, using virtual reality technology.

Kindly RSVP your attendance by Wednesday, May 22 via the link below so we can reserve your lunch.
